

ADVANCE PARIS

Smart BX1

PRESS RELEASE

Advance Paris is proud to announce the new SmartLine range, a Premium-class compact series with superb, pure, elegant looks, and unique Advance Paris hifi technologies. This ultra-high quality serie is composed by fully independant half size components that you can combine to your linking. AX1 integrated/Preamplifier, PX1 preamplifier, BX1 stereo and BX2 mono power amplifiers, SX streamer, DAC converter, MX1 drive and CD1 cd player are the absolute solution for anyone who is looking for incredible musical performance.

Coming soon

BX1

STEREO POWER AMPLIFIER 2x105W

The new BX1 power amplifier delivers real audio performance and value. Massive transformer combined with the audiophile components are the warranty of a detailed and subtlety reproduction of your favourite music. Perfect synthesis of technology, it will offer flexibility and full compatibility with all types of audio sources, digitals and analogs.

HIGH BIAS

The BX1 provides a power of 105 W / 8Ω per channel in class AB. A switch on the rear panel allows to deliver the first watts in Class A. Beyond this limit, the amplifier commutes automatically in Class AB.
