ELEVATE YOUR EXPERIENCE

Take your game to the next level with an exhilaratingly equipped gaming powerhouse. Fast-paced gameplay is smooth as silk with a GeForce RTX™ 2080 Ti graphics card, giving you a competitive edge in any arena. A formidable 10-core 10th Gen Intel® Core i9 CPU slices through even your most intensive workloads, and can even be overclocked to take your system responsiveness to the next level. AI Overclocking technology makes it easy for anyone to auto-tune and optimize their performance. With space for as much as 128GB of high-speed DDR4-2933 RAM, even the most serious power users can multitask to their heart's content.

ENGINEERED FOR ESPORTS

Competitive esports play demands high frame rates sustained over long lengths of time. To achieve that, the GT35 has an aerodynamic chassis with widened vents that stealthily direct more cool air through to the internal liquid cooling system, elevating cooling for peak performance and beyond. Participating in esports competitions and LANs is easier with a built-in carrying handle for portability, and two SSD hot-swap bays that make switching player profiles easy. Special, EMI-shielded glass lets you look inside the chassis itself and watch the high-powered components at work.

DEDICATED CHAMBERS IMPROVE AIRFLOW

Comprehensive cooling is what enables the high-level, sustained performance required for heavy gaming and multitasking. Designed with a unique, multi-zone chassis that keeps the CPU, graphics card, and power supply in separate bays to minimize thermal interference and lower ambient temperatures, the GT35 is able to push processor clocks and frequencies higher for better overall performance.
