

1. Connect the interface cable to the Verbatim device.

2. Connect the interface cable to the port of your PC.

1. Connect the interface cable to the Verbatim device.

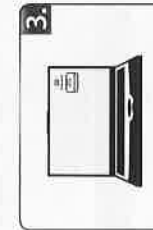

2. Connect the interface cable to the port of your Mac.

3. Installation finished.

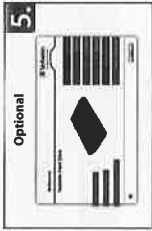

4. Software installation:
a. Double-click "Start PC.exe" on device.
b. Go to Software Installation -> Install the software.

3. Installation finished.

4. Software installation:
a. Double-click "Start Mac" on device.
b. Go to Software Installation -> Install the software.

5. Optional. Save Verbatim files:
a. Double-click "Start PC.exe" on device.
b. Go to "Save Verbatim files" to make a backup of the preloaded contents (manuals, software, support information).

5. Optional. Save Verbatim files:
a. Double-click "Start Mac" on device.
b. Go to "Save Verbatim files" to make a backup of the preloaded contents (manuals, software, support information).

Note:

This drive can be connected to USB 3.2 Gen 1 and USB 2.0 ports. For optimal performance the device must be connected to a USB 3.2 Gen 1 port. Before first use, it is recommended to save all preloaded files from the device to your computer's internal hard drive. For Mac users it is recommended to format the device in Mac OS Extended.

Need assistance? Have questions?

In case you have a question about the use of this product, need information about other Verbatim products or need technical assistance, please contact the Verbatim Service Centre for your country. See www.verbatim.com/support for details. Verbatim offers free unlimited helpdesk support.

About the Hard Drive

The Verbatim drive comes preformatted in FAT32 for drives with a capacity of 2 GB or less. For drives with a capacity of 4 GB or greater, the drive will be formatted in NTFS. The drive will be formatted in FAT32 if you use the drive on a Mac OS X computer. The drive will be formatted in NTFS if you use the drive on a Windows 7, 8, or 10 computer. To change the drive's format, you will need to use software such as My Computer or Disk Management. For more information, see the help file on the drive or the Verbatim website.
