Human and Pet AI

Get notified of what your cheeky children and playful pets are up to.

A Clear View at Night

Night vision for continued surveillance in low-light settings.

The Key is in the Detail

See exactly what is going on in any room in picture perfect 2K clarity.

Automatically Tracks Motion

When movement is detected the camera will automatically pan and tilt to follow the action.

Works with Voice Control

Apple Homekit, Google Home Assistant and Alexa compatible.

Smart Detection Zones

Customize the areas in which the camera will detect motion so you only receive the alerts you care about.
