Become Immersed in Movies Anywhere

Immersive Outdoor Movies

Enjoy a cinematic experience on a massive 200-inch display with vivid 1080p resolution and 1000 ANSI Lumens brightness. With Android TV 11.0, unlock a vast library of content and apps, all with seamless Chromecast and Google support.

Enjoy Up to 5 Hours of Playtime Anywhere

Our exclusive RoamPower technology supports a 185Wh capacity, which lets you use Mars 3 as a power bank to charge smart devices, enjoy 5 hours of movies, and listen to your favorite tunes for 15 hours.

Built for the Outdoors

With IPX3 water resistance, 0.5 m drop resistance, 0.7 mm dust resistance, a built-in stand, a lens cover, a camping light, a power indicator, integrated controls, and a carry handle, you can keep watching, no matter what the great outdoors throws at you.

Crisp and Immersive Audio

The built-in 40W speaker with Dolby Digital Plus delivers crisp and immersive outdoor audio to make movies sound amazing, and music sound crisp and clear with up to 15 hours of music playback.

Easy Setup in Seconds

With Intelligent Environment Adaptation, a built-in intelligent sensor completes autofocus, keystone correction, and screen fit in just 3 seconds, making setup a breeze.

Take Outside, Worry-Free

With the built-in stand, you can swiftly angle your view anywhere. The lens cover protects, while the smart ambient light and integrated joystick ensure an effortless, optimal outdoor viewing experience.
