

# NEXT LEVEL RACING® FREE STANDING SINGLE MONITOR STAND

The Next Level Racing® Free Standing Monitor Stand finishes off your racing simulator setup to give the ultimate immersion to race like a professional supporting screens from 24"-85". The stand includes both lockable wheels for easy movement or height adjustable feet, the choice is yours. The design is based on customer feedback allowing you to have your screens in the perfect position of your choice whether that is directly behind the wheel or further back from your cockpit and allowing you to change the position of the screen easily and quickly. Being completely free standing and with lockable wheels it also makes it the perfect monitor stand for events, trade shows and sim racing centres.

## Compatible Products
