Pass-through charging

Built-in stereo speakers

Float 2.0 | Full HD | 15.6" | Float 2.0 Pro | 2.5K | 16"

### Three Viewing Modes

A portable display for how you work.

#### Stacked mode

Use it as your secondary monitor as an extended display or mirrored display. Achieve a healthy ergonomic alignment while working on the go.

#### Presentation mode

You can also flip the screen and easily share content with someone in front of you, whether it's a presentation to your team at work.

#### Free-standing mode

Use the built-in kickstand and turn Duex Float into an independent display. Perfect for gaming or viewing documents.

### Built-in Folio Kickstand

## Newly designed integrated kickstand.

We redesigned the integrated kickstand of the Duex Float 2 Series, which can stably support your monitor while protecting your screen as a cover when putting into your backpack on the go. It allows you to utilize it independently without magnetically attaching it to your laptop. Comes with 4 optional magnets if you prefer to magnetically attach Duex Float 2 Series monitors to your laptop.

Powerful compatibility
