concentrically brushed metal button

signature mophie "five circle" UI

slightly proud soft touch surface

aluminum frame design

powerstation[®] plus mini

Fast, portable power with integrated USB-C cable

5,000mAh Internal Battery

Contains 5,000 mAh Battery providing at least 1 full charge to your iPhone

Built-in USB-C cable, 20W PD output

Up to 20W allows you to charge your iPad, or iPhone using the reinforced, integrated USB-C cable

Cable Management

Keep your cable neat and tidy, while having a ready-to-go solution

Versatile USB-C PD Port with Pass-Thru Charging

Recharge the powerstation plus or use USB-C port to charge your device with pass-thru charging from the wall to the device.

EnduraFlex™ Silicone

Braided outer cable sheath for durability and premium feel, with silicone interior for flexibility and durability. Soft yet pliable!

Heavy-duty, durable braided cable

Carefully designed cable creates optimized strain relief to ensure a long life at the most common failure point. Tested to survive up to 30,000 bends.
