

flipstik®

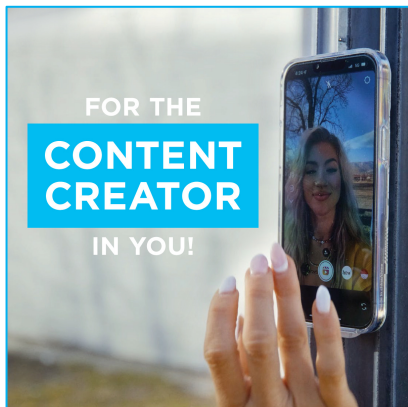

The only hands-free selfie device that sticks to surfaces

DESCRIPTION

Flipstik is a simple device for your phone that will attach to any flat surface. It uses smart synthetic setae adhesive that will attach itself to any flat surface, like a mirror, window, or wall.

NASA Research Sticks:
Flipstik's reusable "Synthetic Setae" adhesive was developed from NASA research based on the feet of geckos and holds up to 2 lbs.

Flipstik sticks to tile, mirrors, glass, metal, car dash, leather, wood, cabinets, and more.

FEATURES

- Flip it and stick it.
- Stick your phone to almost any surface
- Perfect for hands-free selfies and videos
- Works as a phone kickstand for hands-free video viewing
- Twist phone to remove easily when stuck to a vertical surface
- Clean regularly with an alcohol wipe or soap & water to reuse again and again
- Wireless charging works with flipstik attached to phone

EASILY ATTACH TO:

TILE & MIRRORS

GLASS & METAL

CAR DASH & LEATHER

WOOD & CABINETS

DOES NOT WORK ON: Rough or wet surfaces, silicone cases - Use caution on painted surfaces

HANDS-FREE SELFIES + VIDEOS ANYWHERE!

2 POSITIONS:
