DIGITAL INC N Bluetooth® LDAC

The validity of the CE marking is restricted to only those countries where it is legally enforced, mainly in the countries EEA (European Economic Area) and Switzerland.

The CE marking may not be present on your hearing aid. Do not use it while walking, driving or cycling. Doing so may cause traffic accidents.

Do not use it at a dangerous place unless the person wearing the hearing aid can hear you clearly. The unit is not waterproof. If water or foreign objects enter the unit, it may result in fire or electric shock. If water or a foreign object enters the hearing aid, remove it immediately and contact your nearest Sony dealer. In particular, be careful of the following cases:

- When you are swimming or around a sink. Avoid getting water into the hearing aid. Do not use it while swimming or around a sink. It may result in electric shock.

- When you are in the rain or snow, or in humid locations. Water or sweat may damage the hearing aid. Do not use it while you are sweating.

- When you touch the unit while it is wet. If you touch the unit while it is wet, or put the unit in the pocket of a damp article of clothing, the hearing aid may become damaged.

For details on the effect of contact to the human body from the mobile phone or other wireless device, please refer to the following instruction manual of the wireless device.

Never insert the USB plug when the main unit or charging cable is wet. If the USB plug is inserted while it is wet, it may result in fire or electric shock. A short circuit may occur due to the liquid (water or sweat) entering the unit. Do not connect the main unit or charging cable to the power outlet, and cause abnormal heat generation or malfunctions.

Note on static electricity Static electricity accumulated in the body may cause static discharge in your ear. To avoid this effect, wear clothing made from natural materials, which suppress the generation of static electricity.

Precautions

On electronic communications

Bluetooth wireless technology operates within a range of about 10 m. The maximum communication range may vary depending on the presence of obstacles (people, metal objects, walls, etc.) or the electromagnetic environment.

Bluetooth communications may not be possible, or noise or audio dropout may occur during communication.

When there is a person between the unit and the Bluetooth device, this situation may be influenced by the distance between the unit and the device.

The sensitivity of the Bluetooth communication may decrease when there is a metal object or a person between the unit and the Bluetooth device.

Secondary batteries and batteries need to be charged before use. Always refer to the manufacturer's instructions for the correct charging procedure.

After extended periods of storage, it may be necessary to recharge the main unit or batteries several times to obtain maximum performance.

This equipment has been tested and found to comply with the limits set out in the ETSI standard relating to the use of a connection shorter than 3 meters.

Only the supplied headphones cables can be used with these headphones.

Notice for customers: the following information applies to the equipment sold in countries applying EU directives.

This product has been manufactured by or on behalf of Sony Europe B.V.

Inquiries to the EU importer or related to product safety or environmental aspects should be sent to the manufacturer's authorized representative: Sony Belgium, b.v., Viaanlaan 10, B-1030 Brussels, Belgium.

Hereby, Sony Corporation declares that this product complies with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: <https://www.compliance.sony.net/>
