PRODUCT FEATURES

MERGE FX

Build tension, create huge drops, and easily mix between musical genres. Control up to 4 effect elements with the Merge FX knob and make your own presets in rekordbox from a possible 9,000-plus patterns.

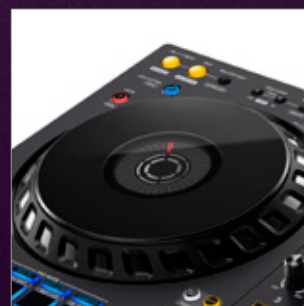

JOG CUTTER

Easily make pro-sounding scratch effects, one-handed. There are 10 different scratch patterns you can trigger by moving the jog wheel backward and forward with the playhead position pointing at different angles. There's no need to touch the crossfader.

FULL-SIZE JOG WHEELS

Pitch bending and scratching feel natural thanks to the large jog wheels, which are the same size as those on the CDJ-3000 multi player. Each features an On Jog Display too, so you can keep an eye on the playhead position.

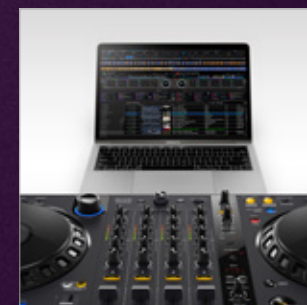

SAMPLE SCRATCH

Choose sounds you've assigned to the rekordbox sampler and load them onto the decks so you can scratch them. With Serato DJ Pro, you can use Scratch Bank to trigger samples by hitting the Performance Pads.

PLUG AND PLAY WITH REKORDBOX AND SERATO DJ PRO

With a built-in sound card and support for the DJ Performance functions in rekordbox (equivalent to the Core plan) and Serato DJ Pro, all you need to do is connect the DDJ-FLX6 via USB cable to a laptop that's running either software application and you can start DJing.

DARK-GRAY MATTE FINISH

The layout of the controls on the DDJ-FLX6 is similar to that on the club-standard CDJ + DJM setup. The DJ controller comes in a dark-gray matte finish which combines with redesigned jog wheels to make your setup stand out.
