- ZeroFrame
- VESA mount support
- Tilt: -5°~ 15°

Visual

- AMD FreeSync™ Premium Pro technology
- Rapid 144Hz refresh rate
- VESA DisplayHDR 400
- DCI-P3 93%
- Supports PIP/PBP

Protective comfort

- Acer Flicker-less
- Acer BlueLightShield™
- Low dimming technology
- Acer ComfyView display

QHD UltraWide resolution

Acer EI2 series brings users into a perfect colorful world with QHD UltraWide 3440x1440 resolution. Acer EI2 Series have you covered with the features you need and make sure your games, work and movies look as epic as possible.

ZeroFrame Design

The zero-frame design maximizes viewing area and provides a more seamless viewing experience for multi-monitor setups.

Curved 21:9 Display

The curved screen puts every corner of the screen at the same distance from the user's eyes, providing a uniform viewing experience and reducing eye strain during long periods of viewing. It also presents a more immersive experience with a wider field of view and increased perceived area of peripheral vision compared to a flat display of the same size.

AMD FreeSync™ Premium Pro technology

With AMD FreeSync, the game's frame rate is determined by your graphics card, not the fixed refresh rate of the monitor. This means the monitor's frames are synced with the graphics card's frames, which eliminates screen tearing and delivers very smooth gaming experiences.

About Acer

Established in 1976, Acer is an information and communication technology company dedicated to the research, design, marketing, sale and support of innovative products that enhance people's lives. Acer's green supply chain delivers environmentally friendly PCs, displays, projectors, servers, tablets and smartphones — tools our customers need to explore beyond limits and experience more. Ranked No. 3 for notebooks globally (IDC 2012), Acer employs 8,000 people, and 2011 revenues reached US\$15.7 billion. Please visit www.acer.com for more information.
