Introduction

This document is your Reviewer's Guide for the ELITE GO (GC313Pro). We have written this guide to provide you with the information you need to quickly and smoothly use the AVerMedia product.

After a quick introduction of the ELITE GO and their target audience, we will dive into its key features, system requirements, and technical specs and show you how to set up and install the device. Lastly, this guide will finish with a link to our technical support team and with some brief information on AVerMedia's background.

Thank you for taking the time to use and try out our latest device, we hope you enjoy using it as much as we enjoyed making it. If you have any questions or suggestions on our products or need any further editorial assistance, please don't hesitate to contact us.

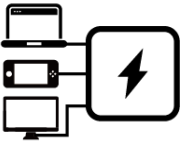

ELITE GO (GC313Pro)

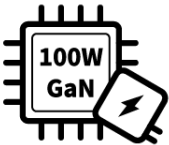

The **Premium Go Series** is a brand-new product line featuring three versatile products, each offering different levels of functionality. The **ELITE GO GC313Pro** stands out with its 100W Quick Charge feature and 1080p60 video capture, allowing users to charge their device and capture video simultaneously. The Premium Go Series provides exceptional mobility and compatibility for various handheld devices, enhancing the user experience in multiple scenarios.

The ELITE GO GC313Pro Charging Capture combines the benefits of a connectivity hub and an AC charger into one convenient device. With two USB-C ports, a USB Type-A 3.0 port, and an HDMI port, it enables users to charge their device while playing on a big screen simultaneously.

The ELITE GO GC313Pro offers the perfect balance between capture functionality and charging convenience, catering to gamers who prioritize versatility and mobility. The key difference between the ELITE GO and the CORE GO is the ELITE GO's superior video capture capabilities, making it an ideal choice for those who need both charging and high-quality video capture features.

Key Features

 <p>PD3.0 Quick Charge</p>	<ul style="list-style-type: none"> • Fast and Efficient: With PD3.0 Quick Charge, your devices get powered up rapidly, saving you valuable time. • Versatile Compatibility: It supports a wide range of devices, ensuring your gadgets are always ready to go. • Advanced Technology: The PD3.0 standard guarantees a safe and stable charging experience.
 <p>Triple-Device Charging</p>	<ul style="list-style-type: none"> • Multi-Device Support: Charge up to three devices simultaneously, maximizing convenience and efficiency. • Compact and Powerful: This feature eliminates the need for multiple chargers, saving space and reducing clutter. • Universal Compatibility: It works seamlessly with a variety of devices, from smartphones to tablets and laptops.
 <p>Overload Protection</p>	<ul style="list-style-type: none"> • Enhanced Safety: Protects your devices from electrical overloads, ensuring a safe charging environment. • Smart Monitoring: Automatically detects and prevents overcurrent and overvoltage conditions. • Peace of Mind: Safeguards your valuable electronics against potential damage.
 <p>Fast Charging</p>	<ul style="list-style-type: none"> • Quick Power-Up: Delivers rapid charging speeds to minimize downtime and keep you connected. • Optimized Efficiency: Intelligent charging technology ensures your devices charge faster than ever. • Universal Support: Compatible with a wide array of devices for consistent, fast charging performance.

 <p>100W GaN Charger</p>	<ul style="list-style-type: none"> • High Power Output: Provides up to 100W of power for fast and efficient charging of high-demand devices. • GaN Technology: Uses Gallium Nitride for improved efficiency and reduced heat generation. • Compact Design: Despite its high power output, it remains small and portable for easy transport.
 <p>4K60 HDMI 4K60 Display</p>	<ul style="list-style-type: none"> • Ultra-High Definition: Supports 4K resolution at 60Hz for stunning visual clarity. • Seamless Connectivity: Easily connects your devices to external displays, enhancing your viewing experience. • Versatile Usage: Ideal for presentations, gaming, and entertainment with crisp and clear visuals.
 <p>Charging, Displaying, Connecting</p>	<ul style="list-style-type: none"> • All-in-One Solution: Combines charging, video output, and connectivity in a single, convenient device. • Streamlined Functionality: Simplifies your setup by reducing the number of cables and adapters needed. • Enhanced Productivity: Perfect for multitasking, ensuring you stay productive and connected.
 <p>1080p60 Video Capture</p>	<ul style="list-style-type: none"> • High-Quality Recording: Captures video in Full HD at 60 frames per second for smooth and detailed playback. • Professional-Grade: Ideal for content creators, streamers, and gamers seeking top-notch recording quality. • Easy Integration: Seamlessly integrates with your existing setup for hassle-free recording and streaming.

*Wall chargers with GaN technology offer faster charging times and greater power efficiency due to fewer electrical components and improved heat performance.

System Requirements

Operating System : Windows® 10 or later (Support UVC Protocol)

Desktop

- Intel® i5-3330 or comparable (i7 recommended)
- AMD A10-7890K (Quad-core) or above
- NVIDIA® GTX 650 / AMD Radeon™ R7 250X or above are recommended
- 4GB RAM

Laptop

- Intel® Core™ i7-4810MQ
- NVIDIA® GeForce® GTX 870M
- 4 GB RAM (8 GB recommended)

Mac System Requirement:

Operating System:

1. Mac with an Intel processor: macOS 11 or later
2. Mac with an Apple M series processor: macOS 11 or later* (*Not compatible with macOS 12)

iMac 2013

- 2.9GHz quad-core Intel Core i5 processor
- NVIDIA® GeForce GT750M with 1GB of GDDR5 memory
- 16GB of 1600MHz DDR3L onboard memory

MacBook Pro 2013

- 2.5GHz quad-core Intel Core i7 processor
- NVIDIA GeForce GT 750M with 2GB of GDDR5 memory and automatic graphics switching
- 16GB of 1600MHz DDR3L onboard memory

MacBook Pro 2017

- 2.8GHz quad-core Intel Core i7 processor
- AMD Radeon Pro 555(2GB GDDR5) at least
- 16GB of 2133MHz LPDDR3 at least

Specifications

Power	AC Pin: US
	Input: AC 100-240V~50/60Hz
	Output: USB-C1/C2: 5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/4.5A, 20V/5A USB-A: 5V/1A
Fast Charging Protocol	PD3.0
Interfaces	Short Circuit, Over Current, Over Voltage, Over Temperature
Max. Pass-Through Resolution	4K60
Video & Audio	Max. Pass-Through Resolution: 4K60 Max. Capture Resolution: 1080p60 Video Format: YUV422, MJPEG Audio Output: Stereo
Dimensions (W x D x H)	66 x 36.6 x 62 mm (2.60 x 1.44 x 2.44 in.)
What's in the Box	GC313Pro USB Type-C to Type-C Cable Quick Start Guide
