

MOONLIGHT WHITE Tri-Mode Wireless Gaming Headset

Key Features

50 mm Titanium-Coated Diaphragm Drivers, A wide **20 Hz–20 kHz** frequency response delivers rich, detailed sound quality

DualFlow Audio technology allows you to **listen to two connected sources simultaneously** – and even answers mobile calls by simply pressing a button on the earcup, so you won't miss a beat.

Supports **high-resolution 24-bit 96 kHz audio enhanced by LC3+ codec**

10 mm Super-Wideband Microphone covers a wider frequency range to capture every nuance in your voice without peaking or distortion, delivering natural and clear voice quality

Versatile **Tri-Mode Connectivity**, Bluetooth, ultralow-latency 2.4 GHz wireless, and a wired 3.5 mm connection

The **ROG SpeedNova** wireless technology optimizes the 2.4 GHz band to deliver a robust, ultra-low latency connection and enhanced energy efficiency without compromising in-game performance.

Includes **two sets of ear cushions of varying material** to suit your preferences. Durable PU Leather Ear Cushions
Breathable Fabric Ear Cushions

Synchronizes effects with other **Aura Sync**-enabled products for a unified look
