

ROG FALCHION ACE 75 HE

75% Analog Gaming Keyboard

The ROG Falchion Ace 75 HE builds on the success of the ROG Falchion Ace HFX with a roomier 75% layout, upgraded ROG HFX V2 Magnetic Switches, and a new ROG Hall Sensor. It also introduces a sensitivity adjustment wheel for effortless on-board tuning, while retaining the multifunction button, interactive touch panel, and the fan-favorite Rapid Trigger toggle. With an 8000 Hz polling rate delivering lightning-fast response, the Falchion Ace 75 HE ensures every keystroke is registered with unmatched speed and precision.

ROG HFX V2X MAGNETIC SWITCHES

Linear and Speedy

Compatible with Plunger and Cross-Shaped Keycaps

Provide users with more keycap options.

Larger Magnet

Enlarged magnet boosts magnetic flux for greater precision and responsiveness, reducing risk of accidental or missed keystrokes.

ROG Hall Sensor

The sensor technology enables high-precision 0.01mm keystroke detection, with greater magnetic flux tolerance and improved power efficiency for smoother, more reliable input.

Upper Housing

PC top housing with the stem contact areas highly polished to ensure keystroke smoothness.

Hollow-Square Stem Design

Enjoy consistent keystroke feel when key is pressed at different areas of the keycap

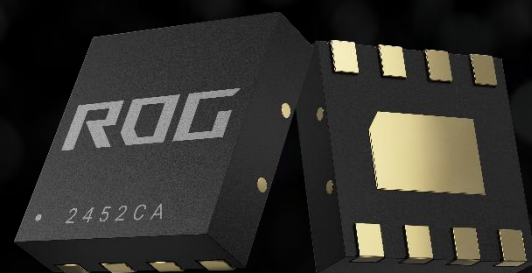

X-Stabilizer

Unique X-stabilizer design mechanism ensures wobble-free keystroke and fast input

Based Housing

POM bottom housing delivers a deeper, more refined keystroke sound.

SPECIFICATION

ROG Falchion Ace 75 HE	
Connectivity	Wired
