

ROG Kithara

Open-Back Planar Magnetic Gaming Headset

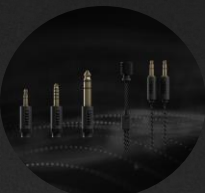

Key Features

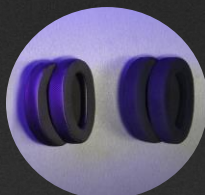

ROG x HIFIMAN 100 mm planar magnetic drivers deliver audiophile-grade fidelity across an **ultra-wide 8-55KHz** frequency range with vivid detail and exceptionally **low distortion**

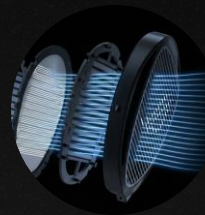

On-cable full-band MEMS boom microphone provides accurate voice pickup with a wide **20 Hz-20 kHz** response and **high SNR** for clean, lifelike communication.

Balanced cable with swappable plugs include a **4.4 mm balanced plug, 3.5/6.3 mm single-ended plugs, plus a USB-C adapter**—offering seamless compatibility with DACs, amps, PCs, consoles, and mobile devices.

Comes with **leatherette-with-fabric and velour earcup cushions** to tailor comfort and **acoustic performance** to your preference

Crafted open-back architecture creates a spacious, **natural soundstage** with **clear separation** across bass, mids, and treble.

Separate Signal Inputs for both audio and microphone signals effectively **eliminate crosstalk**, ensuring clean, uninterrupted communication.

Universal **dual 3.5mm ports** design on headset allows user to **upgrade and customize the cable** for own sound signature.

Features a **soft, adjustable headband, robust metal frame and hinges**, and sleek earcup styling with signature ROG design.

Specifications
