140W PD 3.1 GaN Wall Charger (P1115A)

PD & QC 3-port USB Charger. For MacBook and others.

Description:

The 140W charger adopts the latest PD3.1 fast charging technology, which can provide an amazing 140W fast charging for MacBook Pro, you can get breakthrough charging performance and amazing laptop charging speed. Coupled with PPS/ QC fast charging technology and multiple charging protections, this wall charger can meet all your device charging needs.

Product Features:

- **Fast Charge Your MacBook:** Thanks to a 140W max output and compatibility with USB Power Delivery 3.1, you can charge your 2021 MacBook Pro 16" fully in 1.5 hours*
- **Advanced GaN Technology:** By swapping out silicon for gallium nitride (GaN), we increase efficient conversion for multiple high-power output port, improve heat dissipation, and reduce the size of our chargers.
- **Multiple Charging Ports (For Mac and others):** 25% smaller than the original 140W Mac charger. Our 140W USB-C Wall Charger is equipped with 2 USB-C Power Delivery port and 1 USB-A port, you can quickly charge 3 devices at the same time. With just one charger, you have the power to charge your phones, tablets and USB-C laptops quickly.

*Note: USB-C to MagSafe 3 Cable required for 140W PD output is not included
