AU Code 444411 Imber of cavities Avity 1 Inergy Efficiency index Inergy efficiency class Auergy consumption per cycle -conventional heating Inergy consumption per cycle -fan heating Inergy	A RICH 100Ei TCH CRM 860
odel identifier: ST RCA KU Code 444411 umber of cavities avity 1 nergy Efficiency index nergy efficiency class A nergy consumption per cycle -conventional heating nergy consumption per cycle -fan heating / eat source for the baking area Electric sable volume for baking 33L	
AU Code 444411 Imber of cavities Avity 1 Inergy Efficiency index 91.3 Inergy efficiency class A Inergy consumption per cycle -conventional heating 0,63kW Inergy consumption per cycle -fan heating / Inergy consumption per cycle -fan heating	
avity 1 pergy Efficiency index pergy efficiency class pergy consumption per cycle -conventional heating pergy consumption per cycle -fan heating per source for the baking area pergy column for baking 33L	860
avity 1 pergy Efficiency index pergy efficiency class pergy consumption per cycle -conventional heating pergy consumption per cycle -fan heating peat source for the baking area Electric peable volume for baking 33L	
nergy Efficiency index 91.3 A nergy efficiency class A nergy consumption per cycle -conventional heating 0,63kW nergy consumption per cycle -fan heating / eat source for the baking area Electric sable volume for baking 33L	
nergy efficiency class A nergy consumption per cycle -conventional heating 0,63kW nergy consumption per cycle -fan heating / eat source for the baking area Electric sable volume for baking 33L	
nergy consumption per cycle -conventional heating 0,63kW nergy consumption per cycle -fan heating / eat source for the baking area Electric sable volume for baking 33L	
nergy consumption per cycle -fan heating / eat source for the baking area Electric sable volume for baking 33L	
eat source for the baking area Electric sable volume for baking 33L	/h
sable volume for baking 33L
