

iRobot®

Roomba Combo®

Robot Vacuum & Mop

Swap and mop

Double up on cleaning tasks with one machine. Attach the Roomba Combo® Bin and be able to vacuum only or vacuum & mop your hard floors.

Learns the way you clean

The Roomba Combo® i8 robot learns your cleaning habits to make personalized suggestions like automatic schedules or extra cleaning during allergy and pet-shedding season.

Guided by serious smarts

The Roomba Combo® i8 learns your home's layout to build Imprint® Smart Maps. With these maps it can clean in neat rows, vacuum and mop exactly where you want, and pick up where it left off once it's done recharging.

i8

Roomba Combo® i8 robot vacuum & mop features

Picks up right where it left off

It doesn't skip a beat, or a mess. Our robots know when they need to recharge and then resumes right where it left off for a complete clean every time.

Powerful performance.

Powerful pick-up.

Clean stubborn messes with a 4-Stage Cleaning System that uses 10x the Power-Lifting Suction¹, an Edge-Sweeping Brush, and unique Dual Multi-Surface Rubber Brushes that adjust to different floor types and avoid getting tangled with pet hair.

Come home to clean

Now with iRobot OS, you can choose to set your robot to start cleaning when you leave and stop when you come home, so you only notice the clean, but never the cleaning. Enjoy a clean home and your day.

Focuses on dirt

Dirt Detect™ Technology recognizes dirtier areas of your home and gives them a more thorough cleaning.

Cleans messes in the moment

It learns your home to accurately attack in-the-moment messes with a single command to your voice assistant² like "Roomba, clean the kitchen."

Cleans when, where, and how you want

You can make Clean Zones to direct cleaning where you want, and for areas of your home you don't want mopped, simply set up your 'No Mop Zones'.

¹ Compared to the Roomba® 600 series cleaning system
