WHAT'S IN THE BOX

1. MX Master 4 for *Mac*

2. User documentation

**CONNECT YOUR MX MASTER 4 FOR *MAC*
WITH *BLUETOOTH*®**

**STEP 1: TURN ON YOUR MX MASTER 4 FOR *MAC*
TO CONNECT IT**

Find the switch on the bottom of your mouse and
switch it to the **ON** position.

If there is no power, try charging the mouse.

STEP 2: THE LED SHOULD BLINK FAST

If not, press and hold the Easy-Switch button
(on the back of the mouse) for 3 seconds. When
the light begins blinking, the mouse is ready to
pair with your computer.

**STEP 3: COMPLETE THE PAIRING TO YOUR
COMPUTER**

On your computer find the *Bluetooth*® settings
menu and connect your MX Master 4 for *Mac*
from there.

STEP 4: INSTALL LOGI OPTIONS+

Logi Options+ is a powerful and easy-to-use application that enhances your experience using Logitech devices by enabling you to customize them to work how you want.
