

L7 PRO

Wireless Gaming Mouse

Available via mchose.com and selected players

DESCRIPTION

The MCHOSE L7 PRO is our ultra-lightweight small-hand flagship mouse for players who want a fast, balanced shape for both aim-heavy FPS and everyday gaming, hole-free shell that fits claw, fingertip and hybrid grips

KEY FEATURES

DESIGN & SHAPE

- Ultra-light: approx. 39 g
- Small ergonomic shell: 115.6 × 60.6 × 36.0 mm, optimized for small hands and claw / fingertip / hybrid grips.

PERFORMANCE

- Sensor: PAW3395I, up to 26,000 DPI
- Tracking: up to 750 IPS, 50G acceleration
- Polling: up to 8,000 Hz in wired & 2.4G modes via the 8K receiver

CONNECTIVITY & POWER

- Tri-mode: USB-C wired / 2.4G / Bluetooth
- Battery: 250 mAh, up to 60 hours of typical use

BUILD

- Switches: premium Omron main switches, 70M optical clicks
- Scroll: TTC Gold wheel encoder for precise, consistent scroll steps
- Feet & coating: low-friction 100% PTFE skates and a durable, high-performance surface coating for smooth control on common gaming mousepads
