The European Union (EU) Waste Electrical and Electronic Equipment Directive (EU WEEE Directive) requires producers of electrical and electronic equipment to finance the take back and recycling of their products placed on the EU market after August 13, 2005.

Qanba products in scope of the EU WEEE Directive are labelled with a crossed-out "wheellie-bin" symbol as required by this directive. The symbol indicates that the product was placed on the market after August 13, 2005 and that end users should segregate the product from other waste at end-of-life.
