

Aiper Scuba 800 Cordless Robotic Pool Cleaner, Lasts 90 Mins, Quick Water Release, Self-Parking, Ideal for Flat Above-Ground Pools up to 860sq.ft (80m²), 30ft (9m) in Length with No Slope – White

- Hydro Dynamic Design Enhances Performance - The Scuba 800's hydrodynamic design allows the device to flow through your pool as it propels across the pool floor, picking up dirt and debris, while dedicating that saved power to the Scuba 800's cleaning capabilities.
- Powerful Cleaning Performance - This small but mighty pool cleaner is an aquatic workhorse, cleaning up to 90 minutes and filtering 22 GPM (83 LPM) of your pool's water, all while storing more debris in its two-liter filter box. The powerful dual-drive motors are ready to conquer even the toughest cleaning jobs for pools up to 860 square feet (80 square meters).
- Audio Alert System - You're always in the know when it comes to your pool cleaning, thanks our easy-to-understand audio alerts. Scuba 800 owners will always know the status of their device, no matter what.
- Quick Drainage - Retrieving your device is now easier than ever, a newly improved sophisticated water purging system drains up to 80% of stored water in just 15 seconds, making the Scuba 800 ultra-portable.
- One-Click Activation - Aiper has made every effort to make cleaning simple. So we designed the Scuba 800 with a sleek, simple One-Click activation setup. Simply turn the device on, place it in your pool, and watch cleaning perfection happen right before your eyes.
- Auto-Parking - Simplicity and convenience come together in the Scuba 800 with its auto-parking capabilities. Because not every time is a time for a jump in the pool, the Scuba 800 will automatically park near the wall of your pool when the battery is low, or cleaning is finished.
- Cordless: - Eliminate hassle, tangles, and trips by joining the times and cutting the cord. The Scuba 800 is completely cordless, making it lighter, more portable, and easier to store than those outdated corded cleaners.
