

Zoe

Aroma diffuser

Stadler Form®

SWISS DESIGN SINCE 1998

ZOE — the glowing aroma diffuser

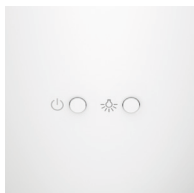

with USB connection for mobile use and adapter for home use

creates an oasis of well-being using your chosen essential oil

Amber Light™ can be dimmed or completely switched off

essential oils are optimally distributed around the room as an extra fine mist

The aroma diffuser with Amber Light™ creates unforgettable, atmospheric moments. Zoe's cool mist is made visible by her amber light. The bronze-coloured, deceptively genuine looking flame transforms the room into an oasis of well-being. This quiet and energy-efficient aroma diffuser uses ultrasound technology to optimally emit essential oils into the room as extra fine mist whenever you want her to – for up to 10 hours. Zoe is a winner in every respect: her attributes includes features such as a USB connection for mobile use and an adapter for use at home as well as an automatic shut-off. And to make sure that your well-deserved night's rest is not disturbed, you can dim the atmospheric Amber Light™ or switch it off altogether as you wish. Elegant aroma diffuser Zoe adds a touch of glamour to any room and creates moments of well-being!
