

PHILIPS

GamePix 900

Gaming Projector

Unleash the power of 4K gaming

Elevate your gaming experience with the **GamePix 900**, the perfect projector for avid gamers seeking an immersive, high-performance home setup. Whether you're diving into the latest action-packed titles or exploring new virtual worlds, the GamePix 900 delivers outstanding **4K resolution**, ensuring crisp, vibrant visuals for every scene.

Capable of supporting up to **240Hz refresh rate**, the GamePix 900 is built to handle the fastest-paced action, providing smooth and fluid motion for high-intensity games. Say goodbye to motion blur—this projector keeps up with even the most fast-paced action, giving you an edge in competitive gaming.

A **low input lag** is crucial for precise, real-time gameplay, and the GamePix 900 offers an incredibly responsive **6ms latency**. Whether you're battling it out in a high-stakes online shooter or racing against opponents, the low latency ensures your moves are always in sync with what you see on screen, making it the ideal choice for all types of games.

Designed with gamers in mind, the GamePix 900 includes **3 dedicated gaming presets: Action Gaming, Adventure Gaming, and Sports Gaming**. These presets optimize the display settings for each gaming genre, ensuring you get the best visuals and performance for your favorite games.

Compact yet powerful, the GamePix 900 is incredibly portable, weighing just **2kg**, making it easy to set up in any room for an epic gaming session. Powered by **DLP technology by Texas Instruments**, it provides stunning image quality with deep contrast, bright colors, and sharp details, transforming your space into the ultimate gaming theater.
