Item Code: **MAGSFWIRELESS..**
Wireless charging base for MagSafe system

Features:

- Designed for iPhone featuring MagSafe technology
- 7.5W wireless charging optimized for iPhone
- USB-C input

Compatibility:

For iPhones with MagSafe technology
(iPhone 12 and later versions)

DESCRIPTION:

MAG WIRELESS CHARGER is the magnetic wireless charging base designed specifically for iPhone with MagSafe technology: the magnets integrated into the charging base allow for an automatic and precise alignment with iPhone.

Mag Wireless Charger provides fast 7.5W wireless charging optimized for iPhone.

Practical and functional, it is the perfect solution to charge the iPhone.

To ensure fast charging at 7.5W, it requires an adaptive USB-C charger of at least 18W, which isn't included in the box.
