Item Code: **MAGSFWIRACHKIT..**
Wireless charging base for MagSafe system and 20W usb-c ADAPTER

Features:

- Designed for iPhone featuring MagSafe technology
- 7.5W wireless charging optimized for iPhone
- USB-C input
- 20W USB-C adapter included

Compatibility:

For iPhones with MagSafe technology
(iPhone 12 and later versions)

DESCRIPTION:

KIT MAG WIRELESS is the kit that offers, in a single solution, everything you need to take advantage of the innovative MagSafe technology featured in the new iPhones: a magnetic wireless charging base and a 20W USB-C adapter.

The magnetic wireless charging base is designed for iPhones with MagSafe technology: the built-in magnets allow automatic and precise alignment with iPhone.

The 20W USB-C power supply provides the energy necessary for the optimal functioning of the magnetic wireless charger.

Using the two products combined, iPhone will receive a 7.5W wireless charge optimized for Apple devices.
