

## DESCRIPTION:

**MULTIPOWER MICRO 30W** is the “ultra compact” charger, it is the unique solution to charge: smartphones, tablets and MacBook compatible with 30W charging.

The USB-C port, equipped with Power Delivery 30W charging, enables the Super Fast Charging 25W for the compatible Samsung devices; the USB-A provide an adaptive fast charging 18W.

This charger is equipped with GaN technology, this technology is based on gallium nitride, a material recently used in semiconductors inside battery chargers. The main advantage of gallium nitride in relation to battery chargers is that it produces less heat. The lower heat generation allows the components to be closer together and, consequently, reduces the size of the chargers.
