

DESCRIPTION:

MULTIPOWER MICRO 65W is the “ultra compact” charger, it is the unique solution to charge: smartphones, tablets and laptops compatible with 65W charging and below.

The USB-C ports, equipped with Power Delivery 65W charging, enables the Super Fast Charging 2.0 for the compatible Samsung devices; the USB-A provide an adaptive fast charging 36W.

This charger is equipped with GaN technology, this technology is based on gallium nitride, a material recently used in semiconductors inside battery chargers. The main advantage of gallium nitride in relation to battery chargers is that it produces less heat. The lower heat generation allows the components to be closer together and, consequently, reduces the size of the chargers.

Packaging

- Book Pack
- Europe Hole
- UV Finishing

PACK Height	PACK Width	PACK Depth
