Wireless Qi2 car holder with cooling system

Technical features:

- Dual application for air vents and windshield
- Universal mount for all car vents
- Internal cooling system
- Qi2 certification
- 15W wireless charging with magnetic pad
- Template for installing the Mag ring, MAG RING, and USB-C cable included

Compatibility:

Wireless smartphone

DESCRIPTION:

FREEZE MAG is a car holder equipped with an internal cooling system designed to prevent smartphone overheating. Thanks to Qi2 technology, this car mount ensures fast and safe charging up to 15W for all compatible smartphones. The included Mag Ring also enables Qi2 wireless charging on all compatible devices.

Featuring a dual application design, with a suction cup and a vent mount, the support can be installed both on the windshield and on the air vents, offering versatile installation options.
