

Wavo PRO

Professional On-Camera Microphone

SKU JB01715-BWW

Overview

Wavo PRO is designed to pair with the latest camera hardware and brings broadcast-level audio performance to this dynamic and growing audience. The built in ANR (Active Noise Reduction) algorithm removes self-generated structural noise in real time, making sure you get the cleanest audio possible directly into your camera while shooting on the go. At the heart of the microphone lies the digital sound processor, which can be controlled via the Wavo PRO app (iOS & Android): actively shape your sound and monitor audio levels even when in front of the camera. Wavo PRO delivers professional content in a fully intuitive package.

Applications

- ANR cleans up bumps in sound from walking or camera movement
- Built-in LEDs notify battery and audio levels in real time
- Manage sound quickly or in detail, via the dedicated app
- Interview-ready with built-in second microphone input
- -10 dB safe track recording option to never miss any moment
