Features in detail

360° Flex

The fully flexible head effortlessly adapts to all your curves for no missed hairs. For up to 1 month of smooth skin, even in tricky areas.

40 MicroGrip tweezers

Removes hairs that wax cannot catch. The MicroGrip tweezers capture hair as short as 0.5 mm.

Smart Touch

Designed for sensitive areas. Automatically switches between power & gentle mode, depending on the pressure applied to the skin.

Wet & Dry

100% waterproof. Gently epilate in the bath or under the shower. The precision handle provides for a controlled grip even when used wet.

Wide head

The wide epilator head removes more hairs in one stroke, for a faster and more efficient epilation.

Smart Light

The Smart Light illuminates the skin and reveals even the finest hairs you would normally miss.

Gentle & power mode

Always the right setting for each body part. Gentle mode for sensitive areas, power mode for best efficiency.

Accessories in detail

Exfoliation brush

The exfoliation brush is more effective than a manual scrub. It leads to softer and smoother skin and helps to avoid ingrown hairs.

Shaver head and trimmer cap

The shaver head turns the epilator into a fully functional shaver, while the trimmer cap (4 mm length) lets you trim hair if you prefer. Great for removing hair even in the most sensitive areas.
