Flosser
Oral Irrigator

Quad Stream technology
Pulse waves guide as you go

HX3806/31

Removes up to 99% of plaque in treated areas*

An effortless, thorough clean

"Enjoy an effortless, thorough clean between your teeth and improve your gum health. Our Quad Stream technology helps you cover more area with less effort, while Pulse Wave technology gently guides you from tooth to tooth. Easy."

An effortless clean with advanced technology

- Quad Stream technology for faster, more effective flossing
- Pulse Wave technology guides from tooth to tooth
- Nozzle rotates 360 degrees for easy maneuverability
- Standard nozzle for a regular clean
- Quad Stream nozzle for maximum coverage
- Easy to fill 250ml reservoir

Customize easily to your needs

- 2 flossing modes, 3 intensities
- Universal and hassle free fast charging with USB-C cable

PHILIPS

Highlights

Covers more area, effortlessly

X-shaped water streams cover more surface area for a faster, deeper clean versus manual floss. Effortlessly.

Guides from tooth to tooth

Gentle pulses of water guide you from tooth-to-tooth so that you don't miss a spot.

360 degree nozzle rotation

Access those hard-to-reach areas with a nozzle that rotates 360 degrees, so that you can use the device in any orientation.

2 modes, 3 intensities

Enjoy a clean that's tailored to your needs. Clean mode uses a continuous flow of water for a great everyday clean, while Deep Clean uses distinct pulses for a more thorough clean. Whenever you need, adjust the intensity to your ideal comfort level.

F1 Standard nozzle

Use the standard nozzle for a regular clean. It uses a single stream of water to remove debris and clean thoroughly between your teeth.

F3 Quad Stream nozzle

For maximum coverage and an extra thorough clean, use the Quad Stream nozzle to concentrate water into four wide streams between teeth and along the gum line. The soft rubber guide is gentle on gums and every nozzle simply clicks on and off.

250ml reservoir

The 250ml reservoir holds enough water for 60 seconds of cleaning. To refill either twist and remove, or use the side fill door for one handed refilling.

USB-C Charging

Simple and convenient charging via USB-C cable provides fast charging using a common connection so you can charge your Power Flosser with the same cable you use for your phone or laptop.

Specifications

Modes

- Clean: For exceptional everyday clean
- Deep Clean+: For an invigorating deep clean
- Intensities: 3

Items included

- Cordless Power Flosser: 1
- F1 Standard nozzle: 1
