The Ninebot KickScooter F40E won't just make commuting pleasant, its outstanding and sturdy design will take you to your destination in total safety. With a higher range than its counterparts at 40 km., the F40E will allow you to travel long distances with ease. Additionally, its powerful motor and high climbing angle make this a perfect KickScooter for riders looking to go long distances that cover rougher terrains and hilly areas. Thanks to its two-step folding mechanism, the F40E can easily be stored in a car, on public transport, or be carried in one hand. The F40E possesses a tougher and more resilient carbon structural steel frame, as well as 10-inch tubeless pneumatic tyres with an additional jelly layer to minimize puncture risk. Its low centre of gravity further ensures a stable drive feeling. The F40E is equipped with front, side and rear E-MARK certified reflectors to increase rider safety. Additionally, built-in non dazzling front and rear LED lights and brake lights ensure rider safety in dark conditions. The F40E can speed up to approx. 25 km/h (15.5 mph). With an upgraded smart battery (367 Wh/10.2 Ah) and a single charge up to 6.5 hours, the KickScooter F40E is tailor-made for a longer riding experience. Its powerful battery further allows the KickScooter to easily climb up to 20% inclination with a load of 100 kgs. Furthermore, the F40E is equipped with two brakes, front – electronic and rear disc brake to ensure safe braking distance. The F40E also possesses an integrated insurance plate holder on the rear fender. To make it more eco-friendly, the Smart Battery Management System (BMS) makes sure that no power goes to waste whilst closely monitoring the battery performance to prevent criticalities like overcharge and discharge, overheating and short-circuiting. The F40E has a sleek design and an easy-to-read LED display that shows you real-time information on driving speed, power mode and battery level. It can also be connected with the app by Bluetooth connection to stay updated on the status of your KickScooter. For
