### WHAT'S INSIDE / WHAT'S NEEDED

**WHAT'S INSIDE**

- Razer Aether Smart Light Strip

**WHAT'S NEEDED**

- A. Extender port
- B. 2 m light strip
- C. Cable tie
- D. Multi-function button
- E. Status indicator
- F. Power port

### LET'S GET YOU COVERED

You've got a great device in your hands, complete with a 1-year limited warranty coverage. Now maximize its potential and score exclusive Razer benefits by registering at [razerid.razer.com](http://razerid.razer.com).

Your product's serial number can be found here:

### CUSTOMIZING THE LIGHTING

**A. VIA MOBILE DEVICE USING THE RAZER SMART HOME APP (REQUIRED)**

Before proceeding, make sure you are up to date with the smart light strip on your Razer Smart Home app, and your PC is connected to the same network as the smart light strip.

1. Go to [razer.com/synapse](http://razer.com/synapse) to download and launch Razer Synapse. For existing users, make sure to update your Razer ID account.

2. Registering for a Razer ID account is recommended but optional. You may continue as a guest; however, you will not be able to store any of your settings on the cloud.

**B. VIA PC / LAPTOP\* USING THE RAZER STRIPE APP (OPTIONAL)**

Pairing mode is required when setting up the smart light strip from the Razer Smart Home app. While unpaired, the smart light strip will always enter pairing mode when you power it on. If the smart light strip is left unpaired for 5 minutes, pairing mode will deactivate and its status indicator will turn yellow. To reactivate pairing mode, press the multi-function button on the end of the light strip.

1. Download the Razer Smart Home app on your mobile device.

### GETTING STARTED

**SETTING IT UP**

1. Use the adhesive layer on the light strip to fasten it to a clean, dry and flat surface.

2. Press the multi-function button to power on the smart light strip. The status indicator will show green to indicate that the smart light strip is connected to your network.

3. On Razer Synapse, click on Add Smart Home Device, and follow the onscreen instructions.

### CHANGING THE LIGHTING EFFECT

While powered on, press and hold the multi-function button to cycle through colors and release to set the current color as the active color.

**PAIRING WITH A NEW DEVICE**

Once paired, it is required to connect the smart light strip to a new device.

1. Switch off the power supply of the smart light strip.

2. While holding the power supply, and continue holding the multi-function button for 5 seconds.

The light strip will briefly cycle through red, green, blue before displaying white when the reset is successful. The status indicator will also turn blue to show that the smart light strip is in pairing mode.

4. Update when prompted, and wait for Razer Synapse to set up the smart light strip. The Razer Synapse Dashboard will show the Razer Aether Smart Light Strip on the Devices list.

3. Launch the app and follow the onscreen instructions. The status indicator will turn solid green to show that the smart light strip is connected to the app.

4. When prompted to select a WiFi network, select the same network used by your mobile device. Your mobile device must be connected to the same network whenever customizing the smart light strip.

5. Prompted to select a WiFi network, select the same network used by your mobile device. Your mobile device must be connected to the same network whenever customizing the smart light strip.
