Length:	23cm / 9"	25cm / 10"	28cm / 11"
Year Launched:	2023		
Care Instructions:	Dishwasher Safe		

Materials: Polypropylene, Stainless Steel

Flat out fitting in.

Slimline design folds completely flat for space-saving storage. No bulky humps or bumps to try to fit into a drawer!

Your main squeeze.

Two-handed sideways pivot operation provides increased leverage using the larger muscle groups of your arms instead of hands, requiring less effort than a traditional press.

The force is strong.

Unique hinged mechanism presses the fruit in half from the sides like juicing with your hands, requiring less force than squashing the fruit flat like traditional juicers.

Go with the flow.

In-built pip catcher strains juice and offers extra control by acting as a funnel to direct juice flow into a glass or small bowl.
